San Antonio Congressional Delegation request to have a new direct flight from San Antonio International Airport (SAT) to Ronald Reagan National Airport (DCA)

THE VOTE IS EXPECTED TODAY.

San Antonio, Texas: The San Antonio Congressional delegation including Congressman Chip Roy (TX-21), Congresswoman Monica De La Cruz (TX-15) and Congressman Tony Gonzales (TX-23), are working diligently for the working people of San Antonio and adjacent counties. Current delegation efforts are focused on supporting a request to have seven new flight slots established at the Reagan National Airport in Washington, D.C.

The delegation's goal is to have one of these slots allocated for a direct flight from San Antonio International Airport (SAT) to Ronald Reagan National Airport (DCA). A nonstop flight to Washington will greatly benefit our business community when they need to testify to Congressional Committees in support of their industry needs. Additionally, this will provide millions of Texans greater access to visit their Federal Representatives to influence federal policies or thank them in person for the work they do for their constituents.

We strongly support these actions and hope that they are successful and applaud their efforts. We look forward to working with them to make this a reality for our community.
